

BAPITA ROY

PROJECT MANAGER | SOFTWARE DELIVERY | AGILE | STAKEHOLDER MANAGEMENT

Kolkata, India | bapitaroy14@gmail.com | +91 9007734205 | github.com/bapita

PROFESSIONAL SUMMARY

Project Manager and software delivery professional with 13+ years of overall experience, including 5+ years in a Project Manager role and earlier experience spanning quality assurance, business development and project coordination. Experienced in defining project scope and objectives, planning schedules and work plans, coordinating cross-functional teams, managing client expectations, tracking project progress, identifying risks and blockers, and driving corrective actions. Strong background in Agile/Scrum delivery, JIRA and ASANA, requirements analysis, stakeholder communication, quality management, SDLC/STLC, risk management, and process improvement. Brings a strong QA and automation background that supports effective delivery planning, release readiness, defect management and technical coordination.

CORE COMPETENCIES

Project Management: Project Scope, Project Objectives, Project Planning, Scheduling, Work Plans, Delivery Tracking, Prioritization, Project Performance Monitoring

Stakeholder Management: Client Communication, Stakeholder Updates, Requirement Clarification, Deliverables, Issue Resolution, Cross-functional Coordination

Agile & Delivery: Agile Methodology, Scrum, Sprint Planning, Daily Stand-ups, Change Management, Release Readiness, Delivery Coordination

Risk & Issue Management: Risk Management (RSKM), Issue Tracking, Dependency Management, Blocker Management, Corrective and Preventive Action (CAPA), RCA

Requirements & Documentation: BRD, FRD, Technical Documentation, Process Flow Diagrams, SLA, MoM, NDA, RFP Responses, Changelog, Configuration Management

Tools: JIRA, ASANA, Mantis, Git, Jenkins, Maven

Quality & Process: SDLC, STLC, ISO 9001:2015, CMMI Level 3, QMS, Internal Quality Audits, Lessons Learned, Quality Planning

Technical Background: Selenium WebDriver, Java, TestNG, Cypress, API Testing, Postman, Rest Assured, SQL

PROFESSIONAL EXPERIENCE

Project Manager | Pitangent Analytics and Technology Solutions Pvt. Ltd.

Feb 2022 – Present | Kolkata

- Define project scope, objectives, priorities and delivery expectations in alignment with client requirements.
- Develop and manage project schedules and work plans using JIRA and ASANA to track activities, priorities and progress.
- Coordinate with clients and internal cross-functional teams on requirements, deliverables, dependencies, risks, priorities and issue resolution.
- Provide regular project status updates to stakeholders covering progress, adjustments, blockers, risks and required actions.
- Monitor project progress and performance, identify areas requiring intervention, and drive timely adjustments and corrective actions.
- Apply industry practices, delivery standards and quality processes throughout project execution.
- Support predictable delivery and release readiness by applying QA and quality-engineering experience to planning, defect analysis, RCA and technical coordination.

Senior Software Tester | Pitangent Analytics and Technology Solutions Pvt. Ltd.

Feb 2021 – Present | Kolkata

- Analyse BRDs and functional requirements and identify testing scope, coverage, dependencies, risks and clarification points.
- Design test strategies, test plans, scenarios and test cases for functional, system, regression, smoke, sanity and exploratory testing.
- Coordinate with development and test team members to resolve issues, track changes and support release validation.
- Organize and monitor defect management using Mantis, ASANA and JIRA, including defect triage, retesting and closure.
- Interact with client-side stakeholders to clarify issues, communicate status and support timely resolution.
- Design and maintain automation using Selenium WebDriver with Java and TestNG, Page Object Model and reusable components.
- Perform API testing using Postman and Rest Assured, validating responses, status codes, payloads, headers, authentication and business rules.

Senior Quality Assurance Analyst | Eclipse Technoconsulting Global Pvt. Ltd.

Sep 2017 – Feb 2021 | Kolkata

- Managed and supervised quality process areas to support organizational quality policies, objectives and client expectations.
- Served as Management Representative for ISO audits and CMMI Level 3 appraisal activities.
- Maintained integrated project management documentation, measurement and analysis, RSKM and CAPA activities.
- Maintained SDLC/STLC documentation, Requirement Traceability Matrix (RTM), tailoring checklists, quality records and lessons learned.
- Conducted QMS training and internal quality audits and supported continuous process improvement.
- Prepared test strategies, scenarios, test plans, test cases and defect logs and performed functional, system, regression, exploratory, smoke and sanity testing.
- Contributed to Selenium WebDriver automation using Java and TestNG.

Business Development Manager | Eclipse Technoconsulting Global Pvt. Ltd.

Jul 2015 – Jul 2017 | Kolkata

- Brought, managed and supported projects through completion while maintaining client relationships and coordinating support and maintenance activities.
- Prepared proposals, technical documentation, quotations and client estimates and responded to RFP requirements.
- Prepared and coordinated SLA, MoM and NDA documentation and supported client-facing communication.
- Supported RSKM and CAPA activities, MPP, changelog and configuration management documentation.
- Created process flow diagrams and prepared Business Requirement Documents (BRD) and Functional Requirement Documents (FRD).
- Coordinated process, operations and project-related activities across functions.

Business Development Executive | Eclipse Technoconsulting Global Pvt. Ltd.

Jul 2013 – Jul 2015 | Kolkata

- Prepared client proposals, pitches and presentations and supported business development documentation.
- Worked with senior team members to identify and manage business risks.
- Supported sales planning, client acquisition activities and ongoing business documentation.

PROJECT MANAGEMENT HIGHLIGHTS

- Project scope and objective definition, work planning, scheduling and priority management.
- Client-facing coordination covering requirements, expected deliverables, progress, issues, risks and dependencies.
- Project status reporting and performance monitoring using JIRA and ASANA.
- Risk, issue and change coordination supported by RSKM, CAPA, RCA and quality-management practices.
- Requirements and project documentation including BRD, FRD, SLA, MoM, NDA, RFP responses, process flows, changelogs and configuration records.
- Strong QA and automation background enabling practical coordination between business, development and testing functions.

EDUCATION

Master of Computer Applications (MCA) | West Bengal University of Technology | 2010 - 2013

Bachelor of Science (B.Sc.) in Mathematics | University of Calcutta | 2007 - 2010

CERTIFICATIONS

- Career Essentials in Project Management - Microsoft & LinkedIn
- Selenium 101 Certification - LambdaTest
- Selenium Advanced Course - LambdaTest

ACHIEVEMENT

Best Paper Award - National Students' Project & Circuit Design Contest (NSPCDC), "New Approximation Algorithm for Project Scheduling Algorithm," IEEE Jadavpur, 2012.
