

BAPITA ROY

SENIOR QA AUTOMATION ENGINEER | TEST LEAD | QUALITY ENGINEERING

Kolkata, India | bapitaroy14@gmail.com | +91 9007734205 | github.com/bapita

PROFESSIONAL SUMMARY

Senior QA and Quality Engineering professional with 9+ years of experience in software testing, test automation and quality processes, with 13+ years of overall professional experience. Hands-on experience in Selenium WebDriver with Java, TestNG, Cypress, Page Object Model (POM), API testing, functional/regression testing and defect management. Experienced in designing test strategies, test plans and test cases from BRDs/user stories; participating in Agile/Sprint ceremonies; performing production issue analysis and RCA; and communicating quality status, risks and issues to clients and stakeholders. Currently working in a Project Manager capacity while retaining strong QA, automation and quality-engineering responsibilities.

TECHNICAL SKILLS

Automation & Frameworks: Selenium WebDriver, Java, TestNG, Cypress, Page Object Model (POM), reusable automation components

API Testing: REST API testing, Postman, Rest Assured, request/response validation, status codes, authentication and business-rule validation

Testing: Functional, System, Regression, Smoke, Sanity, Exploratory, Black-box, Boundary Value Analysis, Decision Table, All-Pairs, Error Guessing

QA & Quality Engineering: Test Strategy, Test Plan, Test Scenarios, Test Cases, RTM, Defect Management, Defect Triage, RCA, Release Validation

CI/CD & Tools: Jenkins, Git, Maven, Extent Reports, JIRA, ASANA, Mantis

Agile & Delivery: Agile/Scrum, Sprint Planning, Daily Stand-ups, Risk Management, Client Communication, Cross-functional Coordination

Quality Processes: SDLC, STLC, ISO 9001:2015, CMMI Level 3, QMS, Internal Audits, CAPA, Lessons Learned

Programming & Data: Core Java, OOPs, Collections, Exception Handling, SQL

PROFESSIONAL EXPERIENCE

Project Manager | Pitangent Analytics and Technology Solutions Pvt. Ltd. | Feb 2022 - Present | Kolkata

- Own project scope, objectives, schedules, priorities and work plans, aligning delivery activities with client expectations.
- Coordinate with clients and internal teams on requirements, deliverables, dependencies, risks, priorities and issue resolution.
- Provide project status reporting covering progress, risks, blockers and required actions.
- Monitor project performance and drive corrective actions and process improvements across cross-functional teams.
- Apply QA and delivery practices to support release readiness, predictable execution and stakeholder satisfaction.
- Continue to contribute QA/automation expertise through quality planning, defect analysis, RCA and technical coordination.

Senior Software Tester | Pitangent Analytics and Technology Solutions Pvt. Ltd. | Feb 2021 - Present | Kolkata

- Analyse BRDs, user stories and functional requirements; identify coverage, dependencies, risks and clarification points.
- Design test strategies, test plans, test scenarios and test cases for functional, integration and regression testing.
- Build and maintain Selenium WebDriver automation using Java and TestNG with Page Object Model and reusable components.
- Develop, debug and execute automated regression suites and maintain automation scripts as application functionality evolves.
- Use Cypress for end-to-end testing where appropriate and contribute to maintainable test structures.
- Perform API testing using Postman and Rest Assured, validating status codes, payloads, headers, authentication and business rules.
- Manage the defect lifecycle using JIRA, ASANA and Mantis; participate in defect triage, retesting and closure.
- Investigate intermittent and production failures, support RCA and coordinate corrective actions with development and stakeholders.
- Participate in Agile/Sprint ceremonies and communicate QA status, risks, blockers and release readiness to stakeholders and clients.

Senior Quality Assurance Analyst | Eclipse Technoconsulting Global Pvt. Ltd. | Sep 2017 - Feb 2021 | Kolkata

- Managed and supervised software quality activities aligned with ISO 9001:2015 and CMMI Level 3 practices.
- Served as Management Representative for ISO audit and CMMI Level 3 appraisal activities.
- Prepared and maintained SDLC/STLC artefacts, Requirement Traceability Matrix (RTM), quality records, tailoring checklists and lessons learned.
- Prepared test strategies, test scenarios, test plans, test cases and defect logs for software projects.
- Performed Selenium WebDriver automation using Java and TestNG and supported maintenance of automation suites.
- Executed functional, system, regression, exploratory, smoke and sanity testing using risk-based test techniques.
- Applied Boundary Value Analysis, Decision Table Testing, All-Pairs Testing and Error Guessing for effective test coverage.
- Conducted QMS training and internal quality audits and supported CAPA and risk-management activities.

Earlier Experience - Business Development | Eclipse Technoconsulting Global Pvt. Ltd. | Jul 2013 - Jul 2017 | Kolkata

- Handled client communication, proposals, estimates, RFP responses, SLA/MoM/NDA documentation and cross-functional coordination.
- Supported project coordination, risk/CAPA activities and client-facing delivery processes.

QA AUTOMATION & QUALITY ENGINEERING HIGHLIGHTS

- Requirement-to-release ownership: analyse requirements, derive coverage, plan testing, execute validation, manage defects and support release readiness.
- Automation focus: Selenium WebDriver + Java + TestNG using POM, reusable utilities and reporting; Cypress used for end-to-end coverage.
- API validation: Postman and Rest Assured for request/response validation, HTTP status codes, headers, authentication and business rules.
- Quality governance: SDLC/STLC artefacts, RTM, quality records, audit readiness, CAPA and continuous improvement.
- Production quality: defect investigation, RCA, retesting and stakeholder/client communication around issues and corrective actions.

EDUCATION

MCA - West Bengal University of Technology | 2010 – 2013

B.Sc. Mathematics - University of Calcutta | 2007 – 2010

CERTIFICATIONS

- Career Essentials in Project Management - Microsoft & LinkedIn
- Selenium 101 Certification - LambdaTest
- Selenium Advanced Course - LambdaTest

ACHIEVEMENT

- Best Paper Award - NSPCDC: New Approximation Algorithm for Project Scheduling Algorithm, National Students Paper and Circuit Design Contest, IEEE Jadavpur (2012).
